

METIS press-conference: EGNOS demonstration in Casablanca Airport

22 October 2009

Airport Mohammed V, Casablanca, Morocco
Module de liaison Terminal 1-2nd floor-ONDA

The METIS project is pleased to invite you to attend the public demonstration that will be run in the Casablanca Airport for the use of EGNOS to support safe management of moving assets in airport area. A press-conference will follow the life demonstration, with the participation of representatives of ONDA, Morocco and European Institutions.

Program of the event:

8:30-9:00	Registration
9:00-9:30	Welcome speech by <i>Mr. A. Benallou</i> (ONDA General Director)
9:30-11:00	Outlook of European and Morocco Institutions on the European GNSS programme perspectives for the Civil Aviation (moderator <i>Mrs. Antonella Di Fazio</i> , METIS project): <i>Mr. M. Bosco</i> (European Commission Directorate-General Energy and Transport) <i>Mr. H. de With</i> (European GNSS Supervisory Authority) <i>Mr. H. Zhar</i> (Air Transport Director, Ministry of Equipment and Transport - Morocco) <i>Mr. A. Manar</i> (Civil Aviation Director, Ministry of Equipment and Transport - Morocco)
11:00-12:15	METIS project and life demonstration by the <i>METIS team</i>
12:15-12:45	Discussion with the audience: Questions & Answers
12:45-13:00	Closure

Funded by EC DG AIDCO in the framework of the Euro-MED GNSS I Programme and managed by the European GNSS Supervisory Authority (GSA), METIS prepares the GNSS services introduction in the MEDA region, starting with EGNOS (European Geostationary Navigation Overlay Service) for the next decade, in view of Galileo. METIS proposes a GNSS Regional Plan including cost-benefit analysis for the ten MEDA countries and in all main user domains: transport, logistics, personal mobility, research and mapping/surveying. To support the Plan, METIS performs service demonstrations, aimed at proving the use of EGNOS in various MEDA countries.
