

**Establishment of the MEDA Transport Blue Paper
2nd Think Tools Test Run Meeting of the "Blue Paper Task Force"
Tunis: March 10 & 11 – 2005**

Objectives

1. Review the results of the 1st Think Tools meeting; validation of the established core factors as result of the situation analysis. Eventually reformulation and addition of core factors.

2. Define strategic options under the respective core factors. Assess compatibility among the various strategy options. Establish a set of long-term goals and assess their relevance and fulfilment in different time horizons. Strategy option evaluation against the established goals.

This exercise will be repeated in Amman. Therefore we should detect potential bottlenecks and difficulties, which might occur during the NCT3 and define preparatory works as regards the structure and methodology for this event.

3. Establish the relations among the different stakeholders and decide if we should repeat this step during the NCT3 Amman.

4. Define the procedure and assignments of the Task Force members in the establishment of part 1 of the Blue Paper

5. Brief the Blue Paper Task Force experts on their role as facilitators and assistants for the MEDA country representatives during the NCT3 and define the necessary preparatory works.
