EURO-MEDITERRANEAN Satellite Navigation (GNSS) Project

- 9th December 2004 –a contract was signed between EC AIDCO and Galileo Joint Undertaking for the implementation of the Euro-Mediterranean Satellite Navigation (GNSS) Project.
- This training and demonstration project aims at paving the way for the involvement of the Mediterranean Partners in EGNOS and Galileo activities and will be implemented over a 3-year period.
- Under this contract, the work is organised in the following four main tasks:
 - ◆ Task A: GNSS Regional Plan
 - ◆ Task B: Training and Awareness
 - ◆ Task C: GNSS Services Demonstration
 - ◆ Task D: GNSS Signal In Space Provision

EURO-MEDITERRANEAN Satellite Navigation (GNSS) Project

● Current Status

- The overall budget amounts to 4.500.000 Euros. It is organised into two actions:
 - ◆ GNSS services introduction in the MEDA region (GJU call for proposal ref. GJU/05/5025-CFP): This call aimed at implementing activities A, B (partially) and C with a total budget of 2.500.000 Euro, with a total duration of 30 months. As result of the proposal evaluation, GJU started the contractual and technical negotiation with the pre-selected Consortium in mid-October 2005.
 - ◆ The negotiation is under finalisation- METIS project. The Kick-Off meeting will take place in May/June (to be confirmed). The total duration of the project will be 30 months (2006 – 2008). Participation of MEDA countries by 50%.

EURO-MEDITERRANEAN Satellite Navigation (GNSS) Project

- **As a whole the consortium participants will represent the following EU countries:**
 - ☞ Italy
 - ☞ Spain
 - ☞ France
 - ☞ Belgium
- **And the following MEDA countries:**
 - ☞ Morocco
 - ☞ Egypt
 - ☞ Israel
 - ☞ Turkey
 - ☞ Jordan
 - ☞ Tunisia
 - ☞ Palestine
 - ☞ Algeria

EURO-MEDITERRANEAN Satellite Navigation (GNSS) Project

● Current Status

- ◆ Training and Awareness and Signal in Space provision action (GJU contract ref. GJU/05/5026-CTR placed with ESA): This work is based on a budget of 2.000.000 Euro regulated by the GJU/ESA agreement for the implementation of the required extension of currently available GNSS signal to the MEDA countries and for complementary activities of dissemination (i.e. Activities B (partially) and D).
- ◆ **Euro-MED co-operation Office in Cairo** is the focal point for the GNSS activities in Mediterranean Region

EURO-MEDITERRANEAN Aviation Project

- Total budget: 5 million €
- Terms of Reference under preparation
- There are three specific objectives to be achieved by the project:
 - ◆ Promote the approximation of the regulations of the MEDA countries to the EU regulations for aviation and provide technical assistance for this purpose
 - ◆ improve air safety and security in the region
 - ◆ promote the co-operation on Air Traffic Management (ATM)
